St. Jude Cloud
Discovery Sponsorship Application

Principal Investigator

Full Name:_____

Department:_____

Research Information

Project Title:_____

Number of lab members on this project:_____

Description of your project:

```
┌─────────────────────────────────────────────────────────────────┐
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
└─────────────────────────────────────────────────────────────────┘
```

Amount of data (in gigabytes):_____

Is all of this data stored on the cluster currently?   ☐ Yes   ☐ No

Please list the directories where your dataset(s) are located on the cluster:

```
┌─────────────────────────────────────────────────────────────────┐
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
│                                                                   │
└─────────────────────────────────────────────────────────────────┘
```

What level of engagement would you be intered in? Select one or more.

☐ Kick-off seminar on how to build apps on DNAnexus and upload data

☐ Assistance from our software engineers in creating applications on the cloud

☐ Assistance from our software engineers in optimizing your code to run efficiently on the cloud

I understand that this is an application to join the St. Jude Cloud Discovery Sponsorship Program and that a minimum of two of my lab members will meet with the St. Jude Cloud team to provide feedback for 1 hour each week for the duration of the program.
